

Which LED tube is right for you?

2.3X longer life
(70K vs. 30K hrs.)

Uses 43% less energy
(18W and 2600 lumens vs LFL 32W and 2800 lumens)

Better quality of light
(Instant-On)

Which LED tube is right for you?

GE's Integrated LED Tube (UL Type A)

Easy Plug & Play Performance

Uses existing ballast

Quickest installation

Lowest installation cost

Limited dimming

System compatibility depends on LFL ballast

GE's Double Ended Ballast Bypass LED Tube (UL Type B)

Simplest Total System direct wiring to mains

Uses no external driver or ballast

Eliminates compatibility issues

Excellent efficacy and additional maintenance savings

Highest install cost

Additional safety precautions
Fuse recommended, but not required

GE's Remote Driver LED Tube (UL Type C)

Best Performance

Uses external driver, providing expanded performance capabilities

Excellent efficacy

Controllable dimming system

Requires LED driver

Medium installation cost

GE makes updating simpler.

Refit Solutions from GE

It's never been easier to upgrade from linear fluorescents to GE's LED tubes. With GE's expanding offering, there are efficient solutions for many popular applications.

Available in 2, 3, 4, and 8 ft lengths along with u-tubes

Shatter-resistant plastic option to prevent breakage and downtime

Glass options fully illuminate fixture with >270° light distribution
