

# Evolve™ LED Roadway Lighting

## High Mast Light Fixture Shield for ERHM02

Project Name \_\_\_\_\_

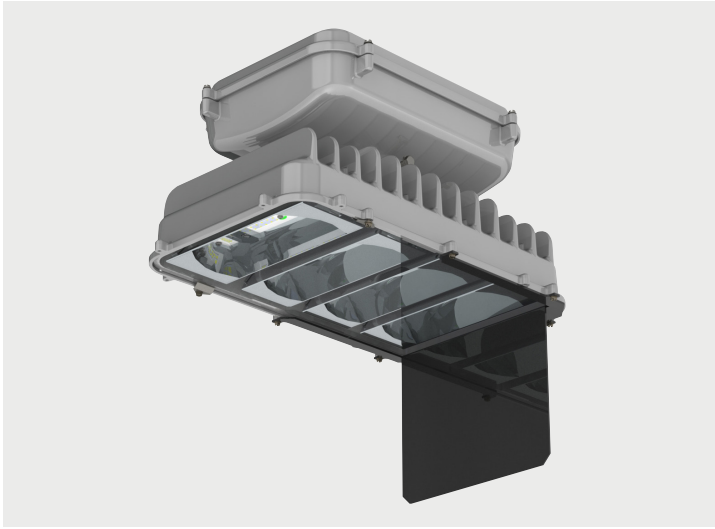

Date \_\_\_\_\_ Type \_\_\_\_\_

Catalog Number \_\_\_\_\_

### Description

The Current Evolve™ LED High Mast delivers excellent trespass control. Current's exclusive reflective optical designs produce superior vertical illuminance and efficiently direct the light without wasteful and unwelcomed light spill into neighboring properties. Due to extensive variation of applications coupled with tightening ordinances, Current now offers an array of shielding to accommodate challenging sites.

The shielding options available for the Current Evolve High Mast focus on backlight control. All shields can be installed easily in the field.

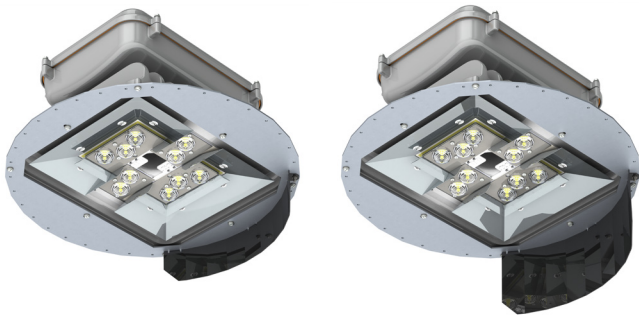

ELSHS-ERHM02-RW-BLCK-09 Roadway Light Shield

For Distribution Types: B3, C3, and D3
