Installation Instructions
Adaptors for DR2 LED Traffic Signal Lamps

BEFORE YOU BEGIN
Read these instructions completely and carefully.

WARNING / AVERTISSEMENT

Risk of Electric Shock. Disconnect Before Servicing or installing product. The LED module must be installed into a signal head with adequate ingress protection for the location (protection from the weather).

Prepare Electrical Wiring

Electrical Requirements
• Follow all National Electric Codes (NEC) and local codes.

Installation Steps:

NOTE: To avoid scratches to the optical surface, DO NOT place lamp on the front surface.

Step 1: Install o-ring in the groove between external lens and black housing.

CAUTION
Risk of Damage
Failure to place o-ring will not seal the adaptor/lamp interface.

Step 2: Pass wires through adaptor ring.

Step 3: Align the arrow on the adapter as shown in the image.

Ensure O-ring is installed
Installation Instructions (cont’d)
Adaptors for DR2 LED Traffic Signal Lamps

**Step 4:** Press the adapter up to the front shell:
Surface of adapter should be in line with the shell.

**Step 5:** Rotate adapter clockwise to align both arrows until locked.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. CAN ICES-005(A)/NMB-005(A).

NOTE: This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.
